University of California, San Diego Extension

Interactive Media Certificate
San Diego Continuing Education

Web Publishing Certificate
University of California, San Diego Extension

Bachelor of Arts Degree – *Historic Preservation*
Mary Washington College, Fredericksburg, Virginia

DESIGN AND DEVELOPMENT

∗ Responsible for developing web app to work with and complement native iOS application for future SaaS rollout.

∗ Developed, tested, and maintained weblog (including creating original artwork and content, maintaining comments section, and managing advertisements) for one of the first recognized "mil-blogs," which received international recognition, including mentions in several national news outlets, and earned over 5million hits during Operation Iraqi Freedom. Migrated site from blogger.com to a more robust host and developed multiple custom Moveable Type templates with increasing complexity and functionality.

∗ Designed, developed and maintained websites and weblogs for private, non-profit, and corporate clients that included creating original content, CMS templates and artwork, inserting new content feeds, and moderating comments.

∗ Developed web application to assist personnel in requesting new case initiations; included dynamic content and field validation.
